Prof Dolar clearly explains concepts in detail. passionate about the subjects. actively asks if anyone has questions or confused about anything.
Professor Dolar truly shows that she cares about her job and she makes it a point to make sure we understood every lesson that was taught. She made sure she offered various examples in case we did not understand the first time.

The instructor is very imformative and passionate about this subject. I like that all powerpoints and work covered can be found on blackboard. She's a fair lady and loves for people to participate. She does her job and more, which is rare these days. Everyone seems like they don't care anymore but not her, she clearly enjoys teaching.
Points and lessons were clearly communicated and i feel i have more knowledge in macroeconomics than i had before taking this class.
Absolutely fantastic! Super knowledgeable and teaches very practically.
Dr. Dolar is an amazing professor and is passionate about the topics she discusses in the class. I would definitely recommend students to take her classes.

Comments
None what so ever

Too much work.
If the class was a bit more hands on and interactive.
The weakness of this course for me is it was a lot of work and material.
This course is difficult regardless of the professor but Professor Dolar made it easier to understand
Often rambles but never competent unrelated
midterms/finals
No issues. I probably could ask more questions in class. But again that's on me. She's fine.
too many different assignments assigned in a very short period of time. leaving the student unable to complete other homework's in a timely fashion, which over time takes a toll on students interest in other classes
There are none

I've said enough. She's a good instructor!
She is the best
definitely one of the best professors I have had thus far at Old Westbury. Her great personality and passion for economics make it hard not to enjoy her class even if you don't like the subject.
